- 6 We do in broad terms say corporations
- generally provide legal protection to you,
- 8 but we don't really get into details about
- 9 that. We primarily stick with just talking
- 10 about the tax consequences of each entity
- 11 type.
- What if someone asks you about 12
- the consequences, not tax related but legal 13
- consequences or liability or insurance, what 14
- happens in those cases? 15
- A. I don't really know. We don't 16
- 17 have a ton of that. I think, I mean,
- 18 ideally they say we're not legal counsel so
- 19 refer to your legal counsel to answer those
- 20 questions. But most of the people, I think
- 21 from my experience, most of the clients that
- 22 come to us understand we're accountants so
- 23 they're not really grilling us on legal
- 24 questions, so they're asking, all right --
- 25 what they mainly want to get out of us is

- are there brick and mortar businesses?
- Some of them, some of them are
- E-Commerce businesses. We have a wide
- 5 variety. It also depends on the lead
- 6 source. Some of our lead sources are how to
- 7 set up an E-Bay business, so those are
- obviously going to be E-Commerce clients,
- where as the Legalzoom is going to be
- restaurants or whatever, plumbing. We have
- a huge range of different types of clients. 11
- 12 Q. As tax consequence-givers, are
- you aware of the legal consequences that may 13
- attach to certain types of entities, are
- you, Gary Milkwick and your staff aware?
- A. I think we're fairly aware, yes. 16
- Q. What happens if an entity or 17
- business is already incorporated? 18
- 19 Then they won't be buying one of
- the packages that's included in the
- 21 Incorporation, so whatever package they
- 22 purchase we will fulfill those services, so
- 23 if it's Tax Prep and something else, then we
- 24 will fulfill those, just like we would in
- 25 the client that we help set up the

Page 123 Page 121 G. Milkwick G. Milkwick 1 spoke about All Access Books and Vital 2 their paychecks. All that good stuff. 2 Q. Do you work with banks with the Payroll? 3 A. No. They don't have to purchase 4 actual client's money or you just set up 4 one before the other. 5 5 systems? Q. I want to go back to the A. No, we set up a system. It's 6 chronology of -- let's start where folks actually A.D.P. system. We use their 7 receive the incorporation papers if you can system. It's an A.D.P. solution. incorporate them. What happens after that Q. Who is involved in designing if they purchase other items? 10 these packages in general, Exhibits 16 and 10 11 the two we just mentioned. Who is creating A. It depends on what they purchase. 11 12 If they purchase, you know, something that 12 them and how are they coming to be? 13 has an ongoing component like the E-Tax A. I would say probably Mike the 13 Hotline or Unlimited Tax Consulting, one of 14 president and Brendan, probably Brendan in those packages they'll received the call 15 sales because most packages, as you saw that we talked about new client orientation, 16 here, are just a combination of different we're telling them how to become more 17 ala cartes which, you know, I know there's a 17 engaged, try to get them engaged with 18 limitation in our system to be able to do services as much as possible, tell them how 19 ala carte, so that's one of the reasons why to best use it and all that good stuff. We 20 we have so many packages because the way our 20 21 system was designed, you couldn't just have invite them, I think we mentioned a weekly 22 webinars on different tax topics. We send 22 E-Tax Hotline plus Unlimited Tax Consulting 23 out, for example, like the webinars we send 23 and make with come through on one charge on 24 out e-mails, particularly to the new 24 the credit card, so we have all these 25 clients, saying look we have these weekly 25 packages which can be, you know, unwieldy

2 sometimes but there it allows it to come

- 3 across as one charge in the client's credit
- 4 card and just one -- it's a system
- 5 limitation basically. But as far as who
- 6 comes up with them, I'd say probably Brendan
- in sales. 7
- Q. I meant like the contents of it,
- 9 not the packages, but the contents inside
- 10 the package, like who created or who put
- 11 together the E-Tax Hotline?
- A. It's a combination of sales and 12
- 13 fulfillment would get together and put that
- 14 together. You know, sometimes with full
- 15 service bookkeeping and we didn't do that
- 16 much of it, I'd talk to Brendan, the sales
- 17 manager, and say we need to sell some more
- 18 bookkeeping because the clients are asking
- 19 for the service, so let's get some more
- 20 options and he would come up with okay let's
- 21 figure out what the packages should be. All
- 22 that stuff.
- Must a customer purchase one of 23 Q.

- webinars, this next one we have coming up
- next week about the tax law changes for
- 4 2011, so we'd like to invite you to look out
- 5 for it, et cetera, et cetera.
- Q. Who decides what to sell, what
- else to sell to clients who have purchased
- something from this list on AG 19?
- That depends. I think I
- mentioned some cases where a client might
- have another business where they have
- another tax return they need, fulfillment
- person would point that out. Sometimes we
- do tax work for clients and they, at some
- point, they do their own bookkeeping and
- they want to start, so an accountant will
- say we also do bookkeeping, so that way I
- think that's also from a fulfillment
- perspective. That's it pretty much. 19
- Q. Is there a time where customers 20
- are told, initial customers, they will be
- called to get information on other
- businesses, when does that happen? 23
- A. Actually, and I haven't talked 24
- 25 about this, there's also a webinars call,

I want to go back a little bit 15 16 responsible for training the people within 16 and revisit zone managers, the three of their zone. Those people also are, I think 17 them. last year every single one of our employees You testified about them 18 went to at least one of the days of the developing expertise in the new tax laws. And so how do they keep up 23 opportunities to learn and grow, so we try wuth the changing tax laws? 23 24 to give them as many opportunities like that A. It's not easy. 24 25 as possible. I think I mentioned the online Q. Such as hiring. 25 Page 136 Page 134 G. Milkwick G. Milkwick 1 2 tools that we have that has access to A. So obviously if we're going to 3 literally hundreds and hundreds of classes, 3 hire somebody for our zone manager position, 4 and we have the ability to help chart out 4 they're going to have a certain number of 5 years of experience, and in general we try 5 learning paths through the software, so 6 you're a senior person now, you need more 6 to promote from within, so the ideal 7 experience with a little bit more 7 situation, they come out of school, they 8 complicated areas that you can work on. As far as how do we keep 15 I don't think we have attorneys 16 them up, yes, we go to things like the 16 17 come to our office. Places like the tax I.R.S. tax forum, we send our employees forum and other places definitely has some 18 there, so that I am not sure if you are of those people present are attorneys.
